TECHNOLOGIES (P) LIMITED**

Company Profile

Firetex is a leading ISO 9001:2008 Indian company in the design, manufacturing & marketing of disaster management equipments, Fire Safety Rescue, suitable for any high risk situation. We started as a producer of asbestos fabric followed by non asbestos fabrics like ceramic etc. & with time the company has developed as a complete solution provider for fire & heat protection workwear, offering complete protection & safety at workplace.

One can rely on a network of agents & dealers all over India for their requirement of Industrial, high temperature, flame retardant & fire fighting workwear. FIRETEX have always been at the fore front of workplace safety, thanks to its constant innovation in products & materials (KEVLAR®, NOMEX®, KERMEL®, PROTEX®, Aramide etc.) & technological research.

1. Fire / Welding Blanket
2. Firefighting Suit / Fire Proximity Suit
3. Heat Protection Workwear
4. Flame Retardant Workwear
5. Safety Hand Gloves
6. Escape Chute / High Rise Evacuation System
7. Inflatable Boats / Lifejacket / Lifebuoy
8. Safety Foot Wear
9. Bomb Blankets
10. Passive Fire Protection

Our **FIRETEX** products find wide applications in the following industries / segment

1. Steel Plants
2. Oil & Petrochemical
3. Automotive Industries
4. Forging Plants
5. Glass Industries
6. Power Plants
7. Defense Etc..

Quality is an important factor which has obtained our products, lot of demand from numerous reputed clients, a few to name: L & T, ONGC, RELIANCE, ESSAR, JINDAL, SAIL, HPCL, BPCL, IOCL and the list is exhaustive.

1. Robust Infrastructure
2. Research & Development Facility
3. Quality Monitoring Unit
4. Affordable Priced Products
5. Timely Delivery Of Consignment

Skid Unit

The CET Skid Unit

A tank, a live hose reel and/or crosslay, a portable fire pump and/or a compressed air foam system (CAFS), with an engine: these can be combined into a single one-piece assembly that can be slipped onto a truck bed, trailer, or into a body and used for flowing water and or foam on structural fire, car fire or wildfire.

The most common wildland and urban interface fire engines in North America combine a small truck with a water tank and a high performance portable pump. Municipal/industrial fire departments and all forestry fire authorities use drop-in units. The sizes vary from 50 gallons, for an ATV, up to 500 gallons for full size trucks.

CET offers a wide variety of combinations, visit our website at www.fire-pump.com to build your own drop-in unit. Follow a few easy steps and get your quote.

of Solutions

Portable Pumps

Skid Unit

Portable Pumps

CAFS

CAFS

The CET CAFS provides a self-contained, diesel-powered, "slide-in" type compressed air foam system (CAFS) unit. The CAFS unit is designed to fit into the back of a standard length and width pick-up truck body, to discharge water only, air only, or compressed air foam from the same discharge outlet. In addition, the consistency of the compressed air foam (expansion ratio), wet/dry is fully adjustable.

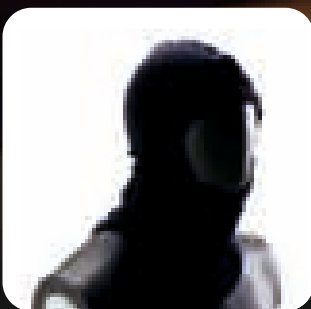

FIRETEX PROTECTIVE TECHNOLOGIES (P) LIMITED

Structural Fire Fighting Suit

EN / NFPA Approved

- Fire Man Boots
- Fire Man Gloves
- Fire Man Hoods
- Fire Man Helmets
